Re: Freedom of Information Request

Request/[Response](#):

- 1) I would like to request information on whether the NHS South Sefton CCG is considering implementing video appointments for the delivery of GP services to local patients.

[NHS South Sefton CCG commissions telehealth, including video consultations for primary care in several nursing homes and are planning to extend this to cover all nursing homes this year.](#)

- 2) If video appointments are under consideration, what are the timescales for implementing this measure.

[NHS South Sefton CCG have no plans for further primary care consultations by video, but as independent contractors, individual GP surgeries may have their own plans.](#)
