Re: Freedom of Information Request

Request/[Response](#):

The first stage of the project aims to identify all short-term reablement services in the England. To do this, could you please tell us if you commission reablement services, and if so we would like to speak to the lead commissioner for reablement/older people's services in your CCG (we are already contacting local authority commissioners).

Please could you provide contact details for the lead commissioner/s for reablement services in your area. If you could provide this as soon as possible, that would be particularly helpful.
