## **Re: Freedom of Information Request**

Request/[Response](#):

The CCG has an Agreement with Renacres Hospital to provide some exploratory services, for example sigmoidoscopy/CT scan. Under the Service Level Agreement (SLA) what is the maximum waiting time for exploratory/diagnostic procedures?

[NHS South Sefton CCG has an NHS Standard Contract which has nationally mandated operational standards under Schedule 4 of the Quality Requirements. This is the standard in the contract \(not an SLA\) with Renacres Hospital.](#)

[A Percentage of Service Users wait less than 6 weeks from Referral for a diagnostic test.](#)
