Re: Freedom of Information Request

Request/[Response](#):

Our organisation is very keen to discuss “primary care retrospective discount/rebate schemes” with representatives from your CCG or groups of CCGs that you are currently working with.

1. May I please ask you to supply me with schemes your CCG or group of CCGs are currently engaged with and the methods used by your CCGs to implement these schemes? If possible, please return your information to me in excel format.

[NHS South Sefton CCG has a rebate scheme for seretide and xarelto. The schemes were considered on an individual basis by the Medicines Optimisation/Operational groups for the CCGs. Liaison will occur between the medicines management analyst and finance team for the implementation.](#)
