Re: Freedom of Information Request

Request/Response:

The CCG has been unable to answer a previous FOI request. If you provided laboratory contacts, I have contacted them (if you didn't forward the request to them). This NEW request is considerably reduced in size and complexity. I request permission to re-use of the data under the Open Government License (attached). Please supply the CCG position on use under OGL.

Please see the following link to the 'Open Government Licence' which the re-use of this information is covered under: http://www.nationalarchives.gov.uk/doc/open-government-licence/version/2/

The data is for PRIMARY CARE only.

Please note Data Set A is for the financial year April 2014 - March 2015 inclusive.

Please complete data set A.

If you do not hold the data in this level of detail then if the CCG has a unitary price for each pathology discipline, please supply the price if you have it by laboratory speciality (as some CCGs can) e.g.

Biochemistry £3.50 Haematology £4.20 Immunology £4.20 etc.

If you have multiple laboratory providers please complete a copy of Data Set A or supply the unitary cost for each.

If you cannot provide any of the above then please provide details of any Pathology activity and costs. NHS Monitor requires CCGs to exercise financial governance and I am interested as to what Pathology activity\financial information the CCG actually does hold.

Chair: Dr Craig Gillespie Chief Officer: Fiona Clark

NHS South Sefton CCG does not hold this level of information to individual test level. You may wish to redirect your request to the Provider of the service, Aintree University Hospital NHS Foundation Trust via the following link: FOIrequests@aintree.nhs.uk
