2 - Would you be able to provide data on the amount of spend by your CCG to contractors who deliver services to help people settle back at home after a hospital stay?

These may be referred to as:

- independent living services
- re-enablement services
- care in the community services

And would include tasks such as companionship, transport to medical appointments and collecting prescriptions.

Are you able to provide the most up to date data available on this, per annum?
