## **Re: Freedom of Information Request**

Please find below the response to your recent Freedom of Information request regarding Asset Register Software services within NHS South Sefton CCG.

### Request/[Response](#):

I am writing to ask whom within the NHS Clinical Commissioning Group might be the best person to contact in order to introduce them to the Information Asset Register software system that is provided by Informu Solutions Limited.

The system allows Record Managers and Information Governance teams to comply with legislation and regulation regarding record-keeping, information security, privacy and data protection etc. It also provides a useful management information tool. Our Managing Director has written an article on LinkedIn entitled "25 Exciting things to do with an Information Asset Register". Please see <https://www.linkedin.com/pulse/25-exciting-things-do-information-asset-register-reynold-leming?articleId=7677348405901301543>

Midlands and Lancashire Commissioning Support Unit provide Information Governance support to NHS South Sefton CCG. You may wish to redirect your query to the CSU
